

DataPoint™ Case Management Solutions

The Challenge

As a busy Clerk, you face increasing caseloads, more complex cases, mountains of paper and growing costs, all with limited resources and tighter budgets.

The Solution

With DataPoint™ Case Management Solutions, you can streamline data entry, reduce paper generation and provide county wide enabling functionality in a browser-based environment that is cost effective.

Serving County Governments for over 20 years, our seasoned team of IT professionals has extensive "hands on" experience in County Government. Having been affiliated with County Governments as Deputy Clerks or support staff for County IT operations, we understand your needs and work to simplify and streamline your County IT operations.

Integrated Case Management for Courts & Clerks

Depend on LGS

With the LGS DataPoint™ CMS Solution, under contract by the Texas Department of Information Resources, DIR-SDD-627, you can immediately begin enjoying the benefits of our Case Management Solutions.
