LOCAL GOVERNMENT SOLUTIONS ADAPTS SOFTWARE FOR SUPREME COURT MANDATE

HOUSTON, TX (June 29, 2015) – Local Government Solutions, announced the release of revisions to their software to address United States Supreme Court’s decision to legalize same-sex marriage. This ruling directly affected thousands of clerks across the nation holding the responsibility of issuing marriage licenses. Despite the tense political circumstances surrounding this issue, LGS strives to provide its customers with the tools needed to make whichever decision they deem in their county.

Following this ruling, modifications were made to the Marriage License module of the DataPoint software to allow for implementation of the Supreme Court ruling. Additionally, LGS appropriately modified the Marriage Application as provided and mandated by the State of Texas.

All LGS County Clerks were directly called and all LGS customers were sent an email with the details of the modifications made. Additionally this email included the steps needed to download the new Marriage Application as provided by the State of Texas.

LGS endeavors to remain neutral in all political issues and opts to focus on providing excellent software that allows office holders the flexibility to function within legal guidelines while exercising their freedom of choice.

All current LGS customers may contact sdickens@us-lgs.com with any questions, concerns, or additional form changes. If you are not an existing customer and have questions please contact ahazeldean@us-lgs.com.
